FRIDAY, FEBRUARY 21, 1920.

DAILY THOUGHT.

The age has many problems, but the problem of the age is the young man.

—A World-Wide Movement.

LAST OF SCHLEY CASE.

The decision of President Roosevelt in the Schley case is a dignified, forcible and impartial document, and is a credit to him. There is a total absence of sickly sentiment in it, and there is not a single point that is not clearly established by the evidence before the court of inquiry. He takes the position first that the court of inquiry did substantial justice in dealing with the facts. The court should have specifically condemned the failure of Admiral Schley to enforce the night blockade at Santiago, although there is no doubt as to whether the ships were moved too rapidly or too slowly from port to port. Schley's retrograde movement, when he abandoned the blockade in disobedience of orders, and his mis-statements of the facts, are among the most reprehensible of his mistakes. Yet the fact that Schley was not called to account shows that any error that may have been committed was thus condoned.

The President, as all other fair minded men, thinks the court of inquiry might have considered the question of who was in command, and who was entitled to the credit, but it did not. This evidence, although of the greatest importance, and bearing on the case to a considerable degree, was excluded, and Sampson's side of the controversy was not allowed to be presented at all.

The President finds further that when the battle of Santiago opened, the American ships all started towards the Spanish ships in the order outlined in the standing order of Admiral Sampson. Technically, then, at least, Sampson commanded the fleet, and could have ordered it to any place at any time Schley was conducting the battle. The most important fact, it is made plain, was that after the battle was joined, not a helm was shifted, not a gun fired, and not a sound of steam put on in the engine room of any ship actively engaged, in obedience to the orders of either Admiral Sampson or Admiral Schley, except on their own two vessels. So far as the active fighting was concerned, it was a battle of the captains. They did not conduct it according to Schley's orders; then why should he claim the credit of the victory any more than Sampson? Sampson never claimed the credit. He never stirred up the whole country like a piqued school boy, and after a court of inquiry of his own selection had conducted the inquiry, excluded all the evidence that might have been introduced by Sampson and rendered a decision against him, he never went to the President with his troubles.

The President thinks the Brooklyn loop was the gravest mistake of the day, and he ends in his review by declaring that there is no further excuse from either side for a further agitation of the subject. He might have added that there never was, and that the country, the people, the Democratic party and Admiral Schley himself would have been better off if there had been none.

The Schley controversy was a stupid mistake from the first, and a man of intelligence should never have allowed himself to be dragged into it. At the bottom of it all has been one thing—politics. There were many misgivings when President Roosevelt was first asked to review the case and settle it, but his reply has been so lucid, fair, and in accordance with undisputed facts, that there can no longer be any doubt as to who is entitled to credit for the battle of Santiago.

As the Sun said months ago, it was largely the men who did the fighting, no matter which of the admirals was in command.

THE ATTACK UPON THE GERMANS.

(St. Louis Globe Democrat.)

Nobody will attempt to indict the entire Democratic party for the ill manners of one of its members, Wheeler, of Kentucky, in his gross insult to Prince Henry and the German element of the American population. It will be noticed, however, that all the bores and dema-

gogues are Democrats. One of Missouri's members of congress, a Democrat, of course, made an attack the other day on the administration at Washington for determining to have this country represented at the coronation exercises in England a few months hence, and pretended that the Republican party was trying to subvert Republican ideals in this country.

The particular style of attack adopted by the Kentucky boor is especially common with Democrats. "What do we care about the good will of the German people?" exclaimed Wheeler. "Why should people fall over themselves to see a little Dutchman come over here to take charge of a little ship?" A short time ago when the Globe-Democrat pointed out some mistakes that some of the Daughters of the Confederacy made in their assertion that Missouri favored secession in 1861, one of the Daughters retorted that the anti-secession vote was principally made up of the "Dutch." This is a common epithet as applied to the Germans by persons of the Wheeler order and of the Wheeler party.

Wheeler's violation of good manners has already had some political consequences which he did not foresee, and probably for which he does not care. It stopped the Democrats from all attempts to obstruct the revenue reduction bill in the house this week, and thus let it pass immediately and by a unanimous vote. The leaders of the Democrats in the house feared that in a discussion of the bill some of the Republicans might mention the Kentucky Democrat's clownishness, and thus add to the derision which the vast majority of sane Americans have for the Democratic party of today. It is possible that Wheeler's district will give him another term in congress, for it is overwhelmingly Democratic in politics, but he is a person of whom decent Democrats all over the country ought to be ashamed.

TO SETTLE THE COW QUESTION

The city council of Paducah does not seem disposed to wrestle with the Town Cow question. The last heard of a request to enact the necessary measures to protect yards and flowers was when it was referred. It is still "referred." It appears that every time the cow question comes up in the council, a few cow owners hasten to the councilmen and begin whining about being poor and having to keep a cow. They soon delude the councilman, who is usually a very sympathetic, as well as unsophisticated man, into believing that every one of his constituents owns a cow, and that to vote to keep cows up will be to vote to take bread and butter out of the mouths of the widow and orphan.

These cow owners are simply working the sympathy racket. They only want to keep up their uncivilized practice of turning their cows loose to prey on the public, make the city look like a village, devastate yards and make themselves otherwise disagreeable. People who can afford to feed a cow are well enough off to buy milk and butter instead. But even if they were not, it would not make it right for them to keep something that has for the past several years been a nuisance and a detriment to the general public.

If the city council hasn't enough backbone to tackle the cow question, it should do like the council at Union City, Tenn. The members, in order to get shut of the vexed question, have called a primary for March 1st to determine by vote the will of the people on the cow question. If the majority favors the present law, which prevents cows running at large, the law will stand. If not, it will be repealed by the council, and cows again be permitted to run at large.

DEMOCRATIC EXTRAVAGANCE.

The state legislature is trying to increase the tax rate. Its only plea, or that of the Democratic organs that are trying to condone it, is that it has to increase the rate to raise money enough to pay off debts contracted through Republican extravagance. This is sheer mendacity. When Governor Bradley went out of office he left about \$300,000, and when Governor Taylor went out he left \$350,000. The Democrats have since appropriated \$100,000 as a reward fund to persecute their political enemies, and have given other unmistakable evidence of having money to burn. If the Republicans left the state in such a fix as the Democrats profess to believe they did, it is all the more reason why such extravagance as appropriating \$100,000 for a reward fund, and placing every institution and fund in the state in charge of an overpaid commission, no doubt to be composed of politicians who are in favor with the gang, should have been passed up by the Democrats. Instead, they have been doing nothing but wasting money and planning to waste more money, ever since they went into office. The present effort to increase the tax rate is simply to get more money to squander. If it is necessary, it was made so by their own extravagance, not by the extravagance of the Republicans. And the indications are that the systematic robbery that characterized other Democratic administrations was nothing to that which is coming. Let the people of Kentucky look at the increase in tax rates that is proposed to be made by the men now in the legislature, demand to know why, and if they find out their eyes will be opened to a most daring attempt of the Frankfort gang to loot the treasury.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons.

J. C. GILBERT.

FOUGHT ON STREET.

WILL JOLLY SERIOUSLY SHOT LAST NIGHT BY FRANK BUCKNER.

Frank Buckner, alias Buckley, and Will Jolly, colored, engaged in a difficulty last night about 6:30 o'clock at Ninth and Washington streets and Jolly was shot in the right groin and leg twice by the other.

The wounded man informed the police that he and Buckner and two others were engaged in a crap game, and he was losing steadily when he discovered that the others were using "loaded" dice on him. He reached over and seized the money declaring that he would not be robbed, and they followed him to the street, where Buckner demanded the return of the money, at the same time beginning to shoot.

Jolly fell and Buckner escaped. The victim came near dying from loss of blood before Dr. Robertson arrived.

GOLDEN CONVOCATION.

Cincinnati, O., Feb. 21.—Over 1,000 prominent Masons have registered here at the Scottish Rite Cathedral up to today for the golden convocation of the rite of the Valley of Cincinnati which was established in this city fifty years ago. While prominent Masons attend this convocation yearly there never was such an attendance as this week.

Among those present is Dr. J. Dias Prieto of Mexico. The thirty-third and thirty-second degree men are present from all parts of the country. The program covers four days and includes excellent music and all the pomp and ceremony of the best ritualistic work.

PARALYSIS STRIKES

JUSTICE GRAY.

Washington, Feb. 21.—Justice Horace Gray of the supreme court has suffered an attack of paralysis, but it is stated that there is every reason to expect his recovery. The attack occurred Tuesday night. His mind is clear, but he has lost the muscular control of a part of his body. Justice Gray has been unwell for some time, and his advanced age, seventy-four years, gave rise to some apprehension as to the outcome, although his family says the attack is not serious.

EGGS HIGHEST IN TWELVE YEARS.

Chicago, Feb. 21.—Eggs are being brought to Chicago from California to supply local demands. Prices have reached 33 1/2 cents, the highest since 1899, when they sold at 35 cents a dozen. There were 3,000 cases in yesterday, but this was less than 50 per cent of the receipts for the same day last year. Dealers in discounting high prices told about sales being made for a number of days in 1873 at 50 cents a dozen. A snow storm then blocked the railroads and checked receipts.

CAUGHT AT KNOXVILLE.

Knoxville, Tenn., Feb. 21.—Charles M. Drye, for whose arrest Governor Beckham of Kentucky offered a reward of \$200, was arrested here this morning. Drye is said to have been one of the men in Turner's quarter house fight, near Middleboro last Wednesday, but he claims he had nothing to do with it. He admits he conducted a restaurant in the lot near the quarter house, but states when he saw the officer's posse coming he ran over the hills. Drye is a negro.

SHOT A GRAY EAGLE.

Hickman, Ky., Feb. 21.—Dr. Hugh E. Prather of Hickman brought into town a gray eagle. Dr. Prather was making a professional call a few miles above town on the Mississippi river, and saw the eagle perched in the top of a large tree. It required but one shot to bring the eagle to the ground. He brought his game to town and, measuring it, found him to be seven feet from top to tip.

THE STONE QUESTION.

Washington, D. C., Feb. 21.—The state department's advice concerning Miss Stone indicate that the Paris publication to the effect that she has been set at liberty is to say the least premature. It is thought, however, that the woman is likely to be released soon, and that the delay is explained by the requirement of the brigands that they be given ample opportunity to insure their own safety.

ELECTED ITS OFFICERS.

The Mechanics' Building and Loan Association last night elected directors for the ensuing year as follows: E. G. Boone, Judge Bethshares, John Rock, W. A. Gardner and F. M. Fisher. Mr. Gardner taking the place of T. J. Atkins, who is in the West. The officers are: E. G. Boone, president; John Rock, vice president, and F. M. Fisher, secretary and treasurer.

SINKING INTO THE OCEAN.

Berkley, Cal., Feb. 21.—Professor William E. Ritter of the University of California has made the discovery that Santa Catalina Island, the famous pleasure resort, is slowly sinking in to the Pacific Ocean. He estimates that the island is now 370 feet lower than it was formerly.

PROMINENT LOUIS.

VILLIAN DEAD.

Louisville, Ky., Feb. 21.—W. P. Olney died suddenly last night on a house boat in Florida, where he went recently on account of his health. He resigned three weeks ago as manager of the Louisville Packing Co., on account of his health.

Miss Enah McKinney, the trained nurse, returned last night from Ogden.

BRAIN FOOD

IS OF LITTLE BENEFIT UNLESS IT IS DIGESTED.

Nearly everyone will admit that as a nation we eat too much meat and too little of vegetables and the grains.

For business men, office men and clerks, and in fact, everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe, outdoor manual labor can live on a heavy diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the bulk of food eaten.

But many of the most nutritious foods are difficult of digestion, and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years' experience have proven Stuart's Dyspepsia Tablets to be a safe, pleasant and effective digestive and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ, but only on the food eaten. They supply what weak stomachs lack, pepsin diastase, and by stimulating the gastric glands, increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion, which means perfect health.

There is no danger of forming an injurious habit, as the tablets contain absolutely nothing but natural digestive; cocaine, morphine and similar drugs have no place in a stomach medicine, and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies.

Ask your druggist for a fifty cent package of Stuart's Dyspepsia Tablets, and after a week's use note the improvement in health, appetite and nervous energy.

THE OTHER ONE.

MR. CHARLES WEILLE COMPLETES THE BOARD OF LIBRARY COMMISSIONERS.

Mayor D. A. Yeiser has now appointed the last of the five library commissioners or trustees and it is Mr. Charles Weille the well known, popular and progressive young clothier. Mr. Weille will make one of the most valuable members of the board for he is a hustler and is thoroughly up to date wherever he is placed.

The other members are: Former Mayor James M. Lang, Rev. G. W. Perryman, Mr. Ed P. Noble and Mr. Henry Savac. The board will meet for organization after the appointments are confirmed by the council.

OLLIE MACK SENDS ANOTHER GOOD COMPANY TO PADUCAH.

By some mistake the pictorial printing for Ollie Mack and James E. Engle's big production of that famous farce, "Finnigan's Ball," did not reach Paducah in time to be displayed on the bill board, consequently the management of The Kentucky decided to call attention to this attraction through the advertising columns of our paper. In this connection we wish to say that we are assured by Manager English that in order to show the people of Paducah how good "Finnigan's Ball" is, he has decided to give a grand bargain matinee at 2 p. m., Saturday, with 25 cents admission for either children or adults to any part of the house. Everywhere "Finnigan's Ball" is playing to \$1 price, but as Manager English realizes that Paducah people will turn out more freely when prices are moderate, he has decided to have the night prices from 25 cents to 75 cents for best seats. Seats will go on sale tomorrow morning for both matinee and night performance Saturday.

"Finnigan's Ball," is the vehicle by which Murray and Mack were carried to the front ranks in the farce comedy field, and there are no better known stars in their line of work to day than Murray and Mack. They have two worthy successors starring in "Finnigan's Ball," Moran and Murphy, who are almost as well known as Murray and Mack. Manager English would like to have the Paducah people see what a good farce comedy is, and feels satisfied that "Finnigan's Ball" will meet with all their critical requirements.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar.

J. C. GILBERT.

THE ELKS.

A NEW FEATURE MAY BE ADDED TO THE BIG CARNIVAL PARADE.

Secretary Nunn of the Elks carnival committee is in receipt of a letter from Deutschmann Brothers of New Orleans, who propose to put on in the big jubilee parade a series of magnificent floats, such as were furnished at the New Orleans Mardi Gras recently. Nothing definite has yet been arranged by the committee.

Last night there was a meeting of the Elks, and Assistant Postmaster John Fisher was initiated.

A THOUSAND DOLLARS THROWN AWAY.

Mr. W. W. Baker of Plainview, Neb., writes: "My wife had lying trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. When a very low, and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks to this great remedy it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar, and would ask those afflicted to try it."

J. C. GILBERT.

IS IMPROVING.

Will McClure, who was painfully cut by Lock Brown near Boaz, Graves county, a night or two ago, is improving. The boys had been to Paducah and got drunk, and McClure had a rib cut in two and a gash cut in his left lung. No arrests were made and Brown claims the cutting was accidental.

A NIGHT ALARM.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell, and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier of Manassas, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar; the first dose gave quick relief, and saved her life." Refuse substitutes.

J. C. GILBERT.

OOM PAUL MAY COME.

Brussels, Feb. 21.—It is said in Boer circles that if Messrs. Wolmarans and Wessels, after investigating the situation in the United States, advise Mr. Kruger that a tour of the United States would be beneficial to the Boer cause, he will overcome his aversion to a long trip and undertake the journey.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time.

J. C. GILBERT.

THREE COUPLES ELOPE.

Hopkinsville, Ky., Feb. 21.—Three Pilot Rock couples—J. J. Williams and Miss Marcelle Williams, William Jordan and Miss Alice Williams and Gus Carpenter and Miss Clyde Berry—eloped to Clarksville, and were married.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates and cures quickly. Careful mothers keep it in the house.

J. C. GILBERT.

MORLEY CASE AGAIN CONTINUED.

Smithland, Ky., Feb. 21.—Will Morley, who shot little Ira Driskill, was taken before County Judge Evans and the case again continued until the 26th of this month, on account of his victim being unable to be present.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs.

J. C. GILBERT.

JUDGE LEE TO ACT AS REFEREE

The meeting of the Terrell creditors will be held on the 25th of the month in the office of Referee Bagby, on legal road. The case will be tried before Judge Lee of Mayfield, as Mr. Bagby is attorney for two of the largest creditors of the bankrupts.

ST. LOUIS EXCURSION.

The Illinois Central will run their annual excursion to St. Louis on Thursday, March 20th, by special train, to leave Paducah about 11 a. m. and arriving St. Louis 5:30 p. m. Rate and limit will be announced later. If J. T. Donovan, Agent.

EMBEZZLER DOSS PARDONED.

Nashville, Feb. 21.—Governor McMillin has pardoned W. O. Doss, ex-city treasurer of Nashville, sent up about a year ago for embezzlement, to serve five years. The application for pardon was very strongly recommended.

DEMOCRATIC CAUCUS.

Washington, Feb. 21.—A caucus of Democratic Senators will be held on Friday to decide upon a definite line of policy to be pursued on Monday next, in voting upon the Philippine tariff bill, and amendments suggested to it.

—The roof at the Longfellow building has been giving considerable trouble during the winter months, and yesterday owing to the leaks, several rooms had to be dismantled.

J. C. GILBERT.

Observations

....at Random

A little girl of eight years went to the dentist last week to have a tooth examined. The tooth was one of the child's first and had been pushed nearly out by the second which had been striving to come forth for some time. The tooth could have been extracted with the fingers but the little girl could not muster up courage enough to perform the operation. The dentist upon examination found that there would be very little trouble, and without using the forceps pulled the tooth from the gum. The child did not know it was not until she felt the opening with her tongue and then she set up a yell that could have been heard for blocks. Nothing could comfort her and she was left to have her cry out. She knew that the tooth must hurt, because it was out.

Several nights ago a well known young man of the city startled the household in a most peculiar manner. He had been to the theater and had gone to a restaurant and taken lunch with a little spirit on the side. The spirits got his head slightly twisted and when he went home he saw all kinds of things. Upon reaching the paternal domicile, he paused at the gate to steady himself and then ascended the steps. Quietly he opened the door and walked in. The gas was turned low in the hall and upon mounting the stairs he saw what he thought to be a burglar in the end of the hall. Grasping up several umbrellas from the hat rack in the hall he demanded in his most stentorian tones to know "who was there?" This he repeated in additional shouts, and in an instant the household was aroused and out to see the trouble. They found the young man standing in the middle of the hall with two umbrellas in his hand, his hat mashed all out of shape and his shoes half off. There was every evidence that there had been something doing, and the young man was forced to retire in disorder, and without the burglar.

The other night some well known society people asked a lady friend who is prominent in church and charity work, to accompany them to the theater. She declined and added: "I never go to the theaters."

The crowd thought that maybe she intended it as a roast and concluded to get even. After the show, and after most everybody else was in bed, they went to the opera house, took the small bill boards that set out front, and hauling them to their friend's house, left them, ablaze with their flaming posters, on her front porch. She was certainly as much surprised the next morning to awake and find them there, as were the neighbors who saw staring them in the face as they wandered their way to church advertisements of the latest coming attractions. The boards were later carried into the back yard, and the jokers will probably have the plank turned on them when Manager English finally finds out what has become of his bill boards, and compels them to bring them back.

There are many narrow escapes at railroad crossings that are never heard of. An engineer on a freight train was running between here and Memphis last week when he had a narrow escape from killing a man. He was going at a high rate of speed several miles below Fulton, when just as the crossing was reached a farmer's team with a driver in the wagon came dashing down the road at full speed. The farmer could not manage the horses but was desperately doing all in his power to turn them from the train. The train was long and the team was within a few feet of it. Fortunately one of the lines broke just in the nick of time, and turned the animals aside as the last car passed. But for this fortunate occurrence the team would have struck the train and the horses and probably the driver killed.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure.

J. C. GILBERT.

The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of eruptions, pimples and various eruptions. By the character of the eruptions we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy without enter through the open glands or pores and quickly infect the blood.

Pure Blood— of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disgusting blackheads, blotches and irritating eruptions, but improves your general health, and gives you a clear, healthy skin. It is a health-giving remedy, and it is a health-giving remedy, and it is a health-giving remedy. Write our physicians for advice, or send for our book, "The Skin and Blood," which contains a full and complete description of all skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.
